Remote Apprentice Interview Directions

This interview will be recorded so please ensure that you are dressed properly, have your camera and speakers enabled and that your cell phone is muted/off.
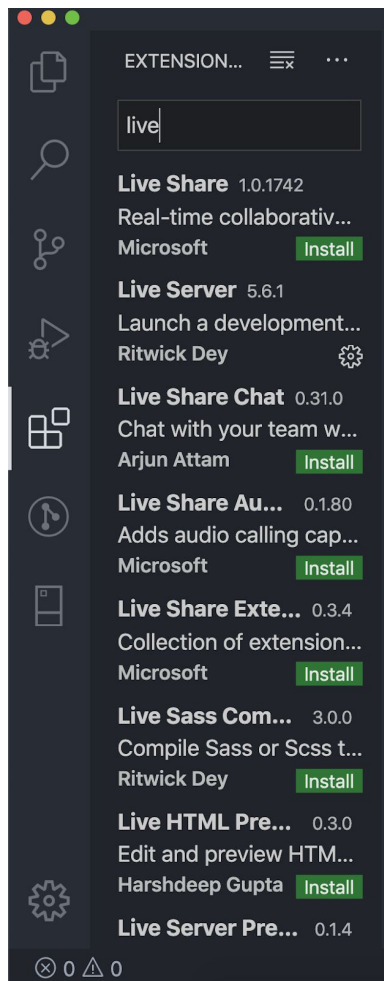

Must-haves:
- Reliable internet connection for a period of 60 minutes
- A quiet environment
- A functional microphone, speakers, and camera connected to your machine
- Visual Studio Code downloaded and installed on your machine
- Zoom downloaded and running
- A great attitude!

Get Started:

Open up Visual Studio Code (VS Code) on your machine.

        a) Find the Extension icon on the left pane. Type "live" into the box and select "Install" on the Live Share Extension. Reload VS Code after the extension is installed and ensure it is enabled.

b) Read through the documentation after installing the extension. We will be giving examples and interacting with you and your code using VS Code's Live Share extension, while we converse with you using the Zoom meeting platform.

Morning of Interview:
Please check your email for a Zoom invite and follow the directions in this video to join the meeting.

> *NOTE: Should you require additional familiarization with Zoom or how it works, we recommend visiting their help center documents/tutorials.*

Right before the Interview:
Reopen your email so that it is accessible during the interview so that you are able to:
- Access the Zoom meeting invite and meeting ID
- Access the provided Live Share URL to join our instructors and interviewers in an interactive code base.

Please contact Tim Indermuehle (tim.indermuehle@techtonic.com) with questions or concerns **1 HOUR BEFORE** your selected interview time should any issues arise.
